TOGAF® Poster Series #8
TOGAF Governance
*by Roger Evernden*

Good e-Learning

This poster will summarize the key points on TOGAF Governance and the several areas to consider:

» Architecture Governance operates within a broader governance framework

» There are certain characteristics for effective governance

» ADM outlines the process: Preliminary & Phases E, G & H are key

» There are levels of conformance

» TOGAF outlines structures and content

GOVERNANCE DOESN'T OPERATE ALONE!

CORPORATE GOVERNANCE

ARCHITECTURE GOVERNANCE

IT GOVERNANCE E.G. COBIT

TECHNOLOGY GOVERNANCE

LEVELS OF CONFORMANCE INCREASE:

- Non Conformant
- Irrelevant
- Consistent
- Compliant
- Conformant
- Fully Conformant

(ADM cycle diagram: Preliminary, Architecture Vision, Business Architecture, Information Systems Architectures, Technology Architecture, Opportunities and Solutions, Migration Planning, Implementation Governance, Architecture Change Management, Requirements Management)

ALL GOVERNANCE SHOULD BE:

Disciplined	Procedures & processes / Authority structures
Transparent	Actions and decisions available for inspection
Independent	Avoiding conflicts of interest
Accountable	Identifies decision makers / Responsible for actions
Fair	

THE ADM OUTLINES THE PROCESS!

Preliminary	Sets up Governance Framework
Phase E: Opportunities & Solutions	Establishes Governance Model
Phase G: Implementation Governance	Oversees implementation Issues Architecture Contracts Ensures implementation conformance
Phase H: Architecture Change Management	Change Requests from Governance
